

SC INBRE Lucky #13 Science Symposium 2022

SC INBRE presents the "[Lucky #13 Science Symposium 2022](#)" and is excited to host an in-person day of learning and networking! The Symposium will take place in Columbia, SC on Saturday, January 22, 2022. Faculty and student research funded by the SC INBRE Developmental Research Project, Bioinformatics Pilot Project, and Student-Initiated Research Project Programs will be showcased at the event. Submit your [abstract](#) (SC INBRE-funded faculty and students only) to participate in the Exhibit Hall Poster Session or [register](#) to attend as a participant with the option of volunteering to be a program judge!

National Science Foundation Funding Opportunity Announcements

The NSF Linguistics Program supports basic science in the domain of human language, encompassing investigations of the grammatical properties of individual human languages, and of natural language in general. Research areas include syntax, semantics, morphology, phonetics, and phonology. The program encourages projects that are interdisciplinary in methodological or theoretical perspective, and that address questions that cross disciplinary boundaries. The target date for full proposal applications is January 15 and July 15, 2022. For more information please, [click here](#).

South Carolina Humanities SCH@50: Remembering the Past, Reimagining the Future

In honor of their 50th Anniversary, SC Humanities has announced a new, statewide themed request for proposals titled, "SCH@50: Remembering the Past, Reimagining the Future." Applications should address this theme from a variety of angles, including: exploring aspects of South Carolina's history, considering how the state has changed over the last 50 years, looking at how we can approach future challenges, or a combination of both. Projects ideally will encourage thoughtful communication and interaction between multiple participants. Applications are due January 12, 2022. For more information please, [click here](#).

National Institutes of Health (NIH) AREA R15

The purpose of the National Institutes of Health (NIH) Academic Research Enhancement Award (AREA) for Undergraduate-Focused Institutions is to support small scale research grants at institutions that do not receive substantial funding from the NIH, with an emphasis on providing biomedical research experiences primarily for undergraduate students and enhancing the research environment at applicant institutions. An AREA grant should: (1) provide support for meritorious research at undergraduate-focused institutions or institutional components; (2) strengthen the research environment at these institutions/components; and (3) give undergraduate students an opportunity to gain significant biomedical research experience through active involvement in the research. Full proposal applications are due annually on June 25, October 25, and February 25. The next round of applications is due February 25, 2022. For more information please, [click here](#).

U.S. Department of Education Fulbright-Hays Grants

The Fulbright-Hays Group Projects Abroad (GPA) program is designed to promote, improve, and develop modern foreign language training and area studies programs for all levels of American education. The program provides opportunities for faculty, teachers, and undergraduate and graduate students to conduct individual and group projects overseas. Projects may include short-term seminars, curriculum development, group research or study, or long-term advanced intensive language programs. Projects must focus on one or more of the following areas: Africa, East Asia, South Asia, Southeast Asia and the Pacific, the Western Hemisphere (Central and South America, Mexico, and the Caribbean), East Central Europe and Eurasia, and the Near East. Applications are due January 11, 2022. For more information please, [click here](#).

The Fulbright-Hays Seminars Abroad—Bilateral Projects Program supports short-term study and travel seminars abroad for U.S. educators in the social sciences, humanities, and the arts for the purpose of improving their understanding and knowledge of the peoples and cultures of other nations. For the FY22 competition, seminars will be offered to post-secondary faculty and administrators in Norway, and to secondary and post-secondary career and technical professionals and policymakers in Germany. The nature of this program is for participants to partake in a pre-arranged, structured academic and travel program. Due to the group nature of the seminar and the requirement that participants attend all scheduled activities, participants will not have time to engage in extensive individual research. Applications are due December 28, 2021. For more information please, [click here](#).

Announcements from the ORGA Office

1) Are you interested in learning more about or applying for a Fulbright Scholarship? Be sure to visit the [Fulbright Scholar Program](#) page on ORGA's website to learn more about the Fulbright program as well as the award selection and application processes.

2) The Institutional Review Board (IRB) at the College of Charleston has officially announced the start of a new research participant compensation program. Researchers on campus are now able to provide electronic gift cards to compensate research participants. For more information about the IRB's policies and procedures please visit the following webpages on ORGA's website: [IRB Application Process](#), [Payment for Research Participants Form](#), [Gift Card Policy](#), and [Gift Card Procedure](#).
